

Preload & Clearance - **WRC**

Preload Class	Definition	21/15	27/20	Application
V0	Light Preload	+0 to -4	+0 to -5	precision applications smooth motion, low friction
V1	Medium Preload	-4 to -10	-5 to -12	precision motion, high stiffness, high load
V2	Heavy Preload	-10 to -16	-12 to -18	precision motion, super high stiffness, super high load
